IPC - Internationale Projekt Consult GmbH is a German company and a leading provider of consultancy and institutional development services to banks in transition economies and developing countries around the world. We support commercial banks in redesigning their infrastructure, business processes and services in an environmentally sound manner. Because we focus equally on development goals and on achieving and maintaining profitability, our consultancy projects are characterised by a high level of sustainability and relevance to worthwhile societal and developmental goals. Our most important partners and clients include KfW, the EBRD, and the GIZ, as well as regional development banks and local commercial banks.

For our knowledge sharing and exchange project for the financial sectors in Central Asia we are looking for an

IT expert (f/m)

Objectives

The main objective of the project is to transfer know how in the field of MSME finance and best practices in providing financial services to MSMEs in Central Asia by:

- Systematic and electronic sharing of EBRD's extensive knowledge in the field of MSME finance.
- Establishing a knowledge sharing and exchange platform accessible to players in MSME finance in Central Asia.
- Regularly providing class room training to financial institutions in Central Asia.

Your tasks

You will support us in the design, programming and maintenance of an online learning platform. You will support platform users and provide general IT support for the project. Furthermore, as member of our long-term project team for Central, you will be involved in other project-related activities.

Your qualifications

Applicants should analyze our website www.ipcgmbh.com closely. You should be able to identify with the vision and approach of our company, be curious about other people and cultures, and have the following qualifications:

- University degree in technical sciences (Information technologies (IT))
- At least three years of relevant experience in IT
- Experience in software programming, server administration (Windows, Linux)
- Experience in user support and writing technical documentation will be plus
- Experience in working with learning management systems (LMS)
- Knowledge of PHP, Javascript, jQuery, HTML, CSS
- Knowledge of SQL
- Knowledge of SCORM standard, knowledge of other standards in e-learning will be plus
- Experience in working with banking systems will be plus
- Very good Russian and English language skills
- Good interpersonal skills, combined with the ability and determination to communicate authentically and openly
- Ability to meet deadlines
- Interest in and willingness to support our teams in Central Asia on site

You would be based in Almaty, Kazakhstan.

IPC offers you interesting and challenging work which will require a pragmatic approach, the desire to work efficiently in an interdisciplinary team and the assertiveness needed to get difficult jobs done right.

If you are interested in joining our team please send a motivation letter, your complete set of application documents (resume, university transcripts and letters of reference) and your earliest possible starting date with the header “IT expert” to hr@ipcgmbh.com by 31 January 2020.
