

IPC - Internationale Projekt Consult GmbH (www.ipcgmbh.com) is a provider of advisory services to financial institutions and education providers in low and middle-income countries and economies in transition. Our activities are concentrated on three main areas: Development Finance, Climate Action & Green Transition, and Skills & Employment. Our clients include the EBRD, EIB, KfW, ADB and many national or regional development agencies across the world.

For our Climate Action & Green Transition team, supporting financial institutions worldwide in the area of mitigation and adaptation finance as well as in environmental management aspects, we are currently looking for a

Technical expert in green/ climate finance (f/m/d)

Location: Yerevan, Armenia

About you

You are an experienced engineer with relevant work experience in an international context with broad technical expertise in energy efficiency and/or renewable energy technologies. You have strong communication skills and enjoy being an active member of multi-disciplinary teams, working with colleagues and clients in multiple locations. Ideally, you also have practical experience in the following areas:

- conducting market studies on energy sectors, investment potential, technological levels, suppliers and local know-how
- conducting baseline assessments, defining eligibility criteria and developing catalogues of standard green investment measures
- conducting techno-economic feasibility studies for energy and resource efficiency and renewable energy investments
- developing and providing trainings
- providing consultancy support and conducting short-term and long-term assignments ideally with our clients

About the role

You will play a key role as technical expert in our multi-disciplinary project implementation teams in charge of green/climate finance projects. The successful applicant will have:

- a master's degree in engineering
- at least 5 years of practical experience in working with energy efficiency or renewable energy technologies or green/climate finance
- experience with GHG accounting methodologies or climate risk reporting
- experience with green/ climate bond taxonomies and standards
- interdisciplinary project experience as well as aptitude and enthusiasm for training
- excellent command of English
- high interpersonal skills coupled with the ability and determination to communicate in a sincere and open manner
- willingness to travel und interest in short and long-term assignments to our projects

In addition, experience in the financial sector and co-operation with financial institutions is an advantage.

If you are looking for an interesting and challenging job in a multi-cultural and dynamic work environment, we look forward to getting to know you. Please send a motivation letter, your complete set of application documents (CV and reference documents) to hr@ipcgmbh.com with the subject "Technical expert in green/ climate finance (f/m/d)" by e-mail no later than 27 September 2024.
